IMPORTANT

In order to keep the library safely operating during this uptick in community spread of COVID-19 and beyond:

- Masks are required - a supply is always available if you forget one;
- Hand sanitizer is available and we ask that you disinfect your hands prior to handling library materials;
- Gloves are available for those wishing to use them, but they are not required;
- Curbside pickup is an option for those not wishing to come into the library;
- Virtual programs will continue to be our main source of providing information and entertainment, enjoyed from the comfort of your home;
- Quarantining continues to be the best way we can ensure the safe handling of library materials

Please...

... do your part to allow us to stay in our current phase of opening! Our goal is to provide the best customer experience possible, safely and conveniently for all.

Please let us know if there are special accommodations needed for you or your loved ones in order to get the most from your library!
